

Welcome & Guidelines

Land Economy Practical Research

Camilo Calderon-Morales, PhD

February 2, 2026

Welcome to the PGR Dissertation Workshops. These sessions are **user-centred** and focus on the *real* issues Mphil researchers face while writing the dissertation — frequent questions, practical problems, and how to diagnose and improve drafts using good (and not-so-good) examples from past work at diverse universities.

 Tip

How to use this site

- Start with the brief **overview** below.
- skimming the **Workshop at a glance** table helps you plan your attendance.
- Bring a short excerpt of your current writing; most sessions include **live diagnosis** and applied activities.

What you'll actually do

- Work through common stumbling blocks for dissertations (structure, argument, evidence, clarity).
- **Review excerpts from previous dissertations** together—what works, what doesn't, and why. :contentReferenceoaicite:8
- Apply checklists/templates to *your* text so you leave with concrete next steps.
